Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Scholl et al (patent no. 5400018) in view of Pillar (patent no. 6553290).

As per claims 1-24, the reason for the rejection based upon the combined teachings of Scholl et al and Pillar as set forth in the last office action dated 4/5/04 is maintained and incorporated herein by reference.

4. In the amendment dated 9/7/04, applicants merely alleged that the newly amended feature of "the operator inputs are responsive to at least one computer-generated question, the question generated is according to a predetermined algorithm" has not been disclosed in either the Scholl et al or Pillar reference. The examiner disagrees with such allegation. The Pillar reference in

Art Unit: 3661

items 16, 18-19 of figure 2 and columns 5 and 10-11 clearly teaches that the feature of employing a computer to generate and display a plurality of prompts or questions in the operator interface to obtain inputs from the operator for diagnosing the vehicle is well known. Further, since the prompts or questions are being generated by a computer in Pillar, it is obvious for one skilled in the art that a predetermined algorithm is needed in the Pillar system in order to generate such prompts or questions. Hence, it is the examiner's contention that a person having ordinary skill in the art would have been motivated to replace the operator switches used in Scholl et al with such well known feature of generating prompts or questions from a computer as taught in Pillar so that communication between the operator and the vehicle diagnostic system can be facilitated as directly suggested in column 5 of the Pillar teaching.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Chin whose telephone number is (703) 305-9751. The examiner can normally be reached on Monday-Friday 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas G Black can be reached on (703) 305-8233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
